LOIS FOLDING CHAIR RHOMBUS WOOD NATURAL

Color finish natural

Packages 1

Country of origin VN

Additional description

Comfortable folding chair
Natural wood with woven polyethylene structure
Nice to combine with ottoman
H 73 x W 60 x D 78 cm

The Lois chair from the WOOD collection is the ideal chair to completely unwind. The large seat and the slightly inclined seat ensure optimum seating comfort. The seat has a woven structure of polyethylene. The frame is made of wood.

The Lois chair has the following dimensions (hxwx): 73x60x78 cm. The seat height is 35 cm, the seat depth is 39 cm and the seat width is 55.5 cm. It is a folding chair, therefore no assembly is required. The maximum weight of the chair is 100 kg.

The Lois chair is suitable for indoor and outdoor use. Protect the chairs against rain, night and winter with a plastic foil or protective cover. If possible, it is better that the furniture overwinters indoors.

Tip: Always make sure that wooden furniture cannot stand in a puddle of water, or that water remains on the furniture after a shower. The water will migrate into the wood and will stain over time. These stains are not always easy to remove....
