An armchair of size
Made of recycled leather (70% leather / 30% polyester)
In the tough cognac colour
H 74 x W 146 x D 98 cm

With the Bean easy chair you get a seat of size in your home with a robust appearance. Bean is known for its high seating comfort. The Bean easy chair, from the collection of Dutch brand WOOD, is made of sturdy recycled leather. What is recycle leather? Factories keep remnants of the skins when cutting them. These remnants are ground down and made into a new fabric: Recycle Leather (70% real leather and 30% polyester). The fabric is made up of two materials: the bottom layer consists of recycled real leather, which gives it its natural and unique look. The leather is protected by a polyester top layer which prevents unevenness and makes it a sturdy combination fabric.

Bean armchair (hwxwd) 74x146x98 cm has a seat height of 45 cm, a seat width of 85 cm and a seat depth of 65 cm. The armrests are 74 cm high and 32 cm wide. This gives the armchair its robust appearance.

The chair has a high seating comfort. The seat cushion has a filling of T37 foam, a normal foam with a long lifespan, and HR30 foam, a foam with high elasticity, dynamic shape retention and ensures high user comfort. The foam has high air permeability and quickly returns to its original shape.
The back cushion is fill...
