## CORAL VASE CERAMICS NATURAL MIX

Color finish natural

Packages 1

Country of origin CN

Intrastat Code 691390000

### Additional description

Playful ceramic vase  
Made of strong ceramic with off-white glaze  
Suitable for loose (dried) flowers  
H 10 x ø 18 cm

You cannot ignore this unique vase! The Coral vase by Dutch brand BePureHome attracts all attention. The creative design is reminiscent of a swirling underwater world. This strong, ceramic vase is protected by means of a naturally coloured glaze. Due to its light natural colour, this item fits in with every interior style.

Coral has various openings of +/- ø2 cm each. These different openings lend themselves well to creatively arranged (dried) flowers. The foot has a diameter of 18 cm. To protect the base, place felt protectors under the foot. Coral is 10 cm high in total.

The Coral vase weighs 950 grams. Coral is formed from a hand-made mould. This gives the vase a traditional look but guarantees the same quality for each individual item. Ceramic is a super strong material, to keep the vase clean use lukewarm water and mild detergent. Stubborn stains can be removed with natural vinegar...
