Additional description

Warm-coloured, round rug
Plant design (50% viscose/50% polyester)
Not suitable for heated floors
Ø 150 cm

The Naya rug from the collection of Dutch brand WOOD is soft and comfortable on your feet and gives a warm atmosphere and good base to any room. The Naya rug is made of a combination fabric (50% viscose/50% polyester) with a botanical plant print. The underside of the Naya rug is not breathable. It is therefore not recommended to place the rug on floors that can be heated.

Maintenance

To enjoy the rug for as long as possible, it is advisable to regularly vacuum the rug without a brush and to regularly rotate it to ensure that no runs appear in the rug. In case of stains, remove these with a damp cloth....
