The Sweep rug from the collection of Dutch brand BePureHome is soft and comfortable on your feet and gives a warm atmosphere and good base to any room. The Sweep rug is made of a combination fabric (80% viscose/20% cotton). The underside of the Sweep rug is made of cotton, which is not breathable. Therefore, it is not recommended to place the rug on floors that can be heated.

Maintenance

To enjoy the rug for as long as possible, it is advisable to regularly vacuum the rug without a brush and to regularly rotate it so that no runs appear in the rug. In case of stains, remove these with a damp cloth....
