Country of origin	IN

Additional description

Robust serving bowl set with natural features
Made of compact aluminium with an antique brass coating
Robust formation in a simple design
H 3 cm x ø 44 cm / H 2.5 cm x ø 35 cm

This set of two bowls is a robust duo with characteristic features. The Serving Plate set comes from the collection by Dutch interior brand WOOD and is made of strong aluminium. The trays have retained the natural characteristics of the aluminium, which means that bumps and scratches give the bowls plenty of character. The antique brass coating gives the Serving Plate set a luxurious look.

The large bowl has a height of 3 cm and a diameter of 44 cm. The smaller bowl has a height of 2.5 cm and a diameter of 35 cm. The aluminium has an average thickness of 0.2 cm and a raised edge of 2.5/2 cm. To
