This set of three candlesticks are newly added to the collection of the Dutch brand WOOOD. Set Mason is made of strong ceramic with a glossy black finish. This finish ensures that the Mason candlesticks are protected against heat and stains from candle wax. Each candlestick has room for a candle with a diameter of 1.5 cm, candles excluded.

The height of each candlestick varies between 11 and 7 cm, making the set easy to combine. The Mason candlesticks are made of different rings, each with a different diameter, varying between 10 and 6 cm....
