Additional description

Stool made of robust paulownia wood
With tough, natural characteristics of the primeval wood
Finished in a matt transparent coating
H 45 cm x W 50 cm x D 25 cm

This stool comes from the collection of the Dutch brand BePureHome. The Japan stool is made of robust paulownia wood. This heavy primal wood is characterized by natural elements such as knots and cracks. These rough bumps give Japan a tough character. The Japan stool is finished in a matt transparent coating, but is not resistant to moisture, stains or dirt.

The Japan stool has a height of 45 cm, width of 50 cm and depth of 25 cm. The top has a thickness of 3 cm and is slightly concave. The maximum load capacity is 110 kg and Japan itself weighs 4.5 kg. To protect hard floors, place felt glides under the legs....
