LIO SIDETABLE DARK BROWN

wood

Additional description

Robust side table with rounded corners
Made of Paulownia wood with natural characteristics
Varnished in matt dark brown
H 46 x W 46 x D 46 cm

This solid side table is from the collection of the Dutch brand WOOD. The Lio side table is made from strong Paulownia wood, which is known for its natural characteristics and robust character. Knots, cracks and visible grain are common elements in this wood. The wood is finished in a dark brown matt varnish, but this does not make Lio resistant to water or stains. Lio has playfully rounded corners, which makes it look like the shape of a dice. Lio is closed on all six sides and has a weight of 11 kg.

Lio has a height, width and depth of 46 cm. The maximum load capacity has not been tested, but is estimated at 100 kg, due to the solid wood design. Felt glides on the underside to protect the side table and hard floors....
