The Sasha occasional table fits easily into any space and interior style. This handy occasional table comes from the collection of the Dutch brand WOODO. Place Sasha in a set in front of the sofa or give your favourite plant the stage it deserves. You can do anything with Sasha!

### Material

The side table is made of a combination of ash wood and MDF, the legs are made of solid ash wood and the table top is formed from MDF. Ash wood is a slightly soft wood with a tight, straight grain. The straight grain pattern ensures that ash wood can be bent well, which makes ash wood very suitable for the furniture industry. Treated ash wood is strong and hardwearing, but untreated ash wood can show a lot of movement and quickly yellow. Sanded ash gives a neat, smooth look. Brushed ash has more character and band sawn ash has a very robust and rough look.

### Dimensions

The side table has a height of 40 cm. The table top has a diameter of 41 cm and the edge of the table top is 3 cm higher than the table top. The three legs are each 37 cm high. The occasional table weighs less than 2 kg, so it is easy to carry around.

### Maintenance

Treated ash is easy to clean
