Robust, sturdy and generous. This coarse dining table from the collection of the Dutch brand vtwonen is a real mood enhancer in the dining area. The Deck dining table looks solid and the warm golden colour of the mango wood immediately provides a lot of warmth. This natural wood colour matches well with various fabrics and colours, so plenty of combination possibilities with dining chairs!

Material

The Deck dining table is made of mango wood with a colourless coating. Mango wood is known for its warm golden brown colour, sustainable growth and long durability. Mango wood is also characterized by clearly visible grain and colour nuances. The grains, a yellow glow or dark lines and knots make every mango wood item unique. Mango wood is very strong and one of the harder woods, therefore a mango wood item will not easily be damaged.

Dimensions

The dining table has a height of 78 cm, a length of 200 cm and a depth of 90 cm.
