TV furniture Bonk did not get its name for nothing. This robust piece of furniture has a tough look that fits in well with the current interior design trends. Bonk is made from solid pine wood with a matt black finish. Behind the wide cabinet door, there is plenty of room for equipment and things you would rather put out of sight.

Bonk stands strong and stable on its 5 legs. With a modest width of 120 cm, Bonk fits into any size of living room. The TV cabinet has a height of 45 cm and is 40 cm deep. The door closes with a black sliding lock, which makes the furniture very user-friendly....
