Stylish, timeless and modern. These are the key words of the Finca series. The Finca series comes from the collection of the Dutch interior label WOOD and is made of natural pine. The Finca items are finished in a matt coating with a deep black colour. The clean lines of the Finca furniture are not interrupted by handles; a modern push-to-open system enables the doors and drawers to be opened and closed silently.

The Finca TV cabinet with round element is a real showpiece in the living room. The open shelves offer enough space to present your most beautiful home decoration. The two drawers keep another ample storage space out of sight. The bottom edge of the TV cabinet leaves 7 cm space at the front, giving the cabinet the appearance of floating.

Each shelf has a maximum load-bearing capacity of 10 kg if the weight is evenly distributed. Each piece of furniture from the Finca furniture series is delivered as a simple construction kit with clear assembly instructions. The sliding of the furniture can cause scratches on hard floors, place felt gliders on the bottom for protection....
