BANCO OUTDOOR SOFA WOOD NATUREL / METAL [fsc]

The mark of responsible forestry

wood

Additional description

- Modern garden bench with stylish design
- Made from FSC-certified African softwood
- Also available as outdoor armchair
- H 78 cm x W 132 cm x D 82 cm

Relax this summer on a stylish garden bench with a super sleek design. The Banco series comes from the Dutch brand WOOD's own production collection and meets the latest design trends. The black metal frame is sharply cut and forms an eye-catching combination with the warm-coloured Thermo Ayous wood.

Material

The metal frame of the Banco series consists of a hollow construction with a matt black powder coating. It is recommended that tile/floor protectors be placed on the underside to ensure a longer-lasting, flawless base. The seat and back are made of fast-growing African softwood called Thermo Ayous. The Ayous used for this series is FSC certified wood and therefore comes from well-managed forests. Because Ayous wood has an open cell structure, it can be perfectly thermally preserved by means of steam or heat treatment without using chemicals.

Dimensions

This stylish garden bench has a total height of 78 cm, width of 132 cm and depth of 82 cm. The seat height is 41 cm and the seat depth is 34 cm, making the Banco garden bench very comfortable. The backrest is 46 cm from the seat and thus offers fine support. The robust woodwork has a thickness of just over 4 cm. The metal base is 5 cm wide and is slightly protruding at the rear for a firm balance. The space between the legs is 110 cm.

Maintenance
