## DAMON DINING TABLE BROWN 76xØ100

wood

### Additional description

- Robust, generous dining table
- Concrete look fibre clay with a brown finish
- Suitable for indoor and outdoor use!
- H 76 x Ø100 cm

This robust Damon dining table is from the collection of the Dutch brand WOOD. The table is made from concrete-look fibre clay with a warm brown finish. Handy; the dining table is suitable for both indoor and outdoor use.

The top has a weight of 25 kg and the leg has a weight of 15 kg. This article is delivered as a kit with clear assembly instructions. For hard floors, place felt glides under the legs. This prevents damage to the floor.

Fiberclay is a dyed material with an open structure. If the furniture is left outside all year round and no maintenance is carried out, the top layer may become damaged. Think of fading or stains. Therefore, protect the furniture from rain and the night all year round. The best way to clean fibreclay furniture is with a soft brush and neutral soapy water, removing stains immediately avoids permanent damage....
