Material

The Nano table is made of strong aluminium finished in a black/brown hue with an antique look. This strong material can take a beating, but does not like wetness, which can cause rapid rusting.

Dimensions

The coffee table is 41 cm high and 77 cm round. The table top is 0.5 cm high. The trumpet base has a total height of 40 cm. The base is Ø33 cm and tapers at the top to Ø6 cm. The trumpet base is hollow at the bottom.

Maintenance

Coated aluminium is very easy to maintain. You can easily keep the item clean on a weekly basis with a dry, clean cloth. Do not use any chemical cleaning agents as these may damage the coating. Dry any damp spots well immediately, this prevents rings.

Delivery

The Nano coffee table is delivered with the bottom to protect hard
