#### What is Recycled Leather?

When cutting the patterns of the hides and skins, factories are left with remnants. These remnants are shredded and from this we make a new fabric: Recycled leather. Recycled leather consists of 70% genuine leather and 30% polyester. The fabric is made up of two materials: the underlayer consists of recycled genuine leather, which gives it its natural and unique appearance. The leather is protected by a polyester coating which prevents unevenness and makes it a sturdy combination fabric.

Maintenance: Recycled leather cannot be treated with grease for leather. Recycled leather can be maintained as follows: a damp cloth can be used to clean the fabric. In case of stains, you can use a neutral soap solution to remove the stains. After removing the stain, wipe the fabric with a damp cloth.

The Rodeo series consists of this stool, a 2.5 seater sofa, a 3-seater sofa, armchair / Loveseat and the Rodeo dining chair.
