Create your ideal dining area with the elements from the Tablo series by Dutch interior design brand WOOD. Tablo has many combination possibilities and various sizes available to furnish your dining area in an exactly fitting manner. For example, choose this organically-shaped variant with the versatile three-legged leg for a playful effect.

Material

Oak wood is characterised by its light brown hue with a soft yellow glow and clearly visible grain pattern. Oak generally dries very slowly, which can cause the natural process of cracking and discolouration. Oak is a natural product which deserves a visible stage, which is why we only use natural-based lacquers and coatings which show off the grain marks and natural characteristics of oak. The oak wood in our collections is always 100% FSC-certified.

Dimensions

The organically shaped oak tabletop has a thickness of 2.2 cm and is 130 cm at its widest
