WARNING tipping hazard!

For cabinets higher than 70 cm, we recommend paying extra attention to the wall mounting. Mounting the fall prevention device prevents accidents and preserves the cabinet from tipping over.

Material

The metal in our collections has various finishes, such as powder coating and brass/antique brass. The antique brass finishes in our collections are applied with a mix of copper and zinc on the metal, which can then be finished in a brushed look, matt or shiny. Antique brass gives a weathered golden appearance to the item.

The Intense wall rack is 175 cm high, 39 cm wide and 35 cm deep. The frame is 2 cm wide and 1 cm deep. The compartments are 39 cm wide and 43 cm high. The transparent glass shelves are made of safety glass.
