- H 2.4 cm x W 220 cm x D 100 cm

Create your ideal dining area with the elements from the Tablo series by Dutch interior design brand WOOD. Tablo has many combination possibilities and various sizes available to furnish your dining area in an exactly fitting manner. Choose, for example, this organically shaped table top for a playful effect!

Material

Ash wood is a slightly soft wood with a tight, straight grain. The straight grain pattern ensures that ash wood can be bent well, making it very suitable for the furniture industry. Treated ash wood is strong and hardwearing, but untreated ash wood can show a lot of movement and quickly yellow. Sanded ash gives a neat, smooth look. Brushed ash has more character and band sawn ash has a very robust and rough look.

Dimensions

The organically shaped table top has a width of 220 cm and a depth of 100 cm, but is not rectangular. The tabletop has a thickness of 2.4 cm.

Maintenance

Treated ash is easy to clean with a slightly damp, clean cloth. Stains on untreated ash wood can be solved with an absorber.
