woood

Additional description

- Ash table top (FSC-certified)
- Create your ideal dining area with the Tablo elements
- Unique organic shape
- H 2,4 cm x W 130 cm x D 130 cm

Create your ideal dining area with the elements from the Tablo series by Dutch interior design brand WOODO. Tablo has many combination possibilities and various sizes available to furnish your dining area in an exactly fitting manner. Choose, for example, this organically shaped table top for a playful effect!

Material

Ash wood is a slightly soft wood with a tight, straight grain. The straight grain pattern ensures that ash wood can be bent well, making it very suitable for the furniture industry. Treated ash wood is strong and hardwearing, but untreated ash wood can show a lot of movement and quickly yellow. Sanded ash gives a neat, smooth look. Brushed ash has more character and hand sawn ash has a very robust and rough look.

Dimensions

The organically shaped table top has a width and depth of 130 cm, but is not round or square. The tabletop has a thickness of 2.4 cm.

Maintenance

Treated ash is easy to clean with a slightly damp, clean cloth. Stains on untreated ash wood can be solved with an absorbent, clean cloth. If stains are stubborn, ash wood can easily be re-treated. Sand the wood to 180 grit, then protect the ash wood with an oil, wax, varnish or stain of your choice. Untreated ash wood is not suitable for outdoor use.

Delivery

The round and oval Tablo tops are pre-drilled for attaching the table legs...
