The simple design of the Nanne side table gives the article an original look. Nanne is part of the WOODO Exclusive collection and stands out with its rough mango wood with deep black finish and luxurious marble table top.

## Material

Mango wood is known for its warm golden brown colour, sustainable growth and long durability. Mango wood is also characterized by clearly visible grain and colour nuances. The grains, a yellow glow or dark lines and knots make every mango wood item unique. Mango wood is very strong and one of the harder woods, therefore a mango wood item will not easily be damaged. Marble is a limestone that obtains its natural colour shades by a long exposure to temperature differences and high pressure during the formation of mountains. This process ensures that each marble item has its own unique pattern. In addition to the characteristic markings, white spots or dots can also appear in the stone. spots can also occur in the stone. Prevent moisture stains simply by using coasters.
