SLOPING 3-SEATER SOFA NATURAL MELANGE

Additional description

- Friendly rounded shape
- Very high seating comfort
- Upholstered in woven chenille (100% polyester)
- H 77 cm x W 240 cm x D 87 cm

Friendly shape, comfortable seating and silky soft upholstery. These are the distinctive features of the Sloping 3-seater sofa! The Sloping series comes from the collection of Dutch interior design label BePureHome and is a true eye-catcher in your living space. The rounded, sleek design gives this comfy sofa a modern look. Simple and significant, Sloping.

Material

The Sloping corner sofa is constructed from a combination of solid wood, chipboard, polyurethane foam with a density of 25 kg/m³ and zigzag springs. The seat contains a 30 kg/m³ density polyurethane foam (T3037).

The Sloping series is upholstered in a woven chenille with a Martindale of 38,000. The Savoi woven fabric is composed of 100% polyester chenille, which gives the fabric a soft grip. The clearly visible weave pattern is given an extra dimension by the striking colour nuances. These hues create a cool look. As the fabric is coloured thread by thread, Savoi is known for its colourfastness.

Dimensions
