Additional description

- Organic, sturdy side table
- Concrete-look fibre clay in dark anthracite
- For indoor and outdoor use!
- H 35 cm x W 50 cm x D 50 cm

Side table Pebble is an in-house design from the collection of Dutch brand vtwonen. The table is made of concrete-look fibre clay with a dark, anthracite-coloured finish. A unique item suitable for both indoors and outdoors.

Material

Fibreclay is a dyed material with an open structure. The material is a composition of fibreglass and clay which makes the item very strong. Fiberclay has a concrete look but is remarkably lightweight. Fiberclay is suitable for both indoors and outdoors, but if the item is left outside all year and not maintained, the top layer can be damaged. Think of fading or stains.

Dimensions

- Height: 35 cm
- Width: 50 cm
- Depth: 50 cm
- Carrying capacity: 90 kg
- Weight: 12 kg

Maintenance

Due to its slightly porous composition, it is recommended to protect the furniture from rain and night all year round. To prevent staining, it is recommended to place the item indoors or outdoors on a protective mat. Clean with a soft cloth and neutral soapy water, removing stains immediately prevents permanent deposits.
