## BLISS CHAIR PLASTIC OCHRE

## Additional description

The design of the Bliss is reminiscent of the old wooden bar chair of the past, like at grandma's home. Thanks to the use of materials (polypropylene), the Bliss is ideal for indoor and outdoor use. A big advantage of this chair is that the design is stackable, so it is easy to store. It is a sturdy chair that sits comfortably. The chair is available in six beautiful matt colours, which can easily be combined with each other. The seat height is 45 cm, the seat depth is 43 cm and the maximum load capacity is 150 kg. The chair is delivered assembled.
