# MAXIME DINING TABLE RECYCLED WOOD NATURAL 220x90CM

wood

Color finish natural

Packages 1

Country of origin IN

## Additional description

- Stylish dining table with sturdy woodwork
- Table top formed from recycled teak
- Each item is unique!
- H 76 cm x W 220 cm x D 90 cm

A tough and robust table top on a slim, matt black leg frame. You will find this stylish combination in the Maxime series from the Exclusive collection by Dutch interior design brand WOOD. The wood of the Maxime items is recycled teak with a rough look and warm colouring. The characteristic look of the recycled wood gives each item unique properties.

## Material

Teak is a tropical hardwood and a very durable type of wood. Teak wood itself has a dark brown/red colour which looks very luxurious. Teakwood is characterised by a tight, straight grain and is therefore very suitable for processing. However, outdoor use can cause discolouration or hairline cracks in the wood. This does not affect the construction.

## Dimensions

- Height: 76 cm
- Width: 220 cm
- Depth: 90 cm
- Top height: 8.5 cm
- Top thickness: 2 cm
- Foot height: 74 cm
