RANDY CHAISE LONGUE LEFT WARM GREY

basiclabel

Additional description

- Robust chaise longue
- Upholstered in a canvas fabric made of a natural fibre combination
- Part of the Randy sofa collection
- H 81 x W 295 x D 95/177 cm

The Randy sofa series easily blends into any interior style due to its stylish design and comfortable fabric selection. This timeless sofa comes from the collection of Dutch interior design brand Basiclabel and has an accessible seat. The slightly firm, supportive seat offers enough comfort for an evening of relaxing or reading a good book!

Material

The seat's frame is made of a combination of chipboard, softwood and hardwood and plywood. The seat cushions have a filling of firm foam (T3542/HR3020) with breathable qualities. This foam type quickly assumes its original shape, making the sofa suitable for years of seating pleasure.

The item is upholstered in a woven canvas fabric. Our Cozzo flat woven canvas fabric is composed of 60% cotton and 40% linen. The canvas fabric, made of 100% natural fibres, has a soft and full grip but requires caring maintenance. The Cozzo fabric is stonewashed, meaning each fabric bath leaves its own original characteristics in the fabric. Because of this staining technique, the fabric is not colourfast but has a cool vintage look.
