[fsc]

wozod

Additional description

- Ash table top (FSC-certified)
- Create your ideal meeting room with the Tablo Lungo elements
- Available with or without built-in socket space
- H 5 cm x W 150 cm x D 120 cm

Create your ideal meeting room with the elements from the Tablo Lungo series by Dutch interior design brand WOOD. The Tablo Lungo has many expansion options and various sizes available to create a meeting table of the desired size. For example, extend the table endlessly with this straight intermediate shelf, available with and without a recess for a power point.

Material

Ash is a slightly soft wood with a tight, straight grain. Ash wood is strong and hardwearing. Sanded ash gives a neat, smooth appearance. Brushed ash has more character and band sawn ash wood has a very robust and rough look.

Dimensions

- Thickness: 5 cm
- Width: 150 cm
- Depth: 120 cm
- Carrying capacity: 100 kg
- Weight: 34 kg

Maintenance

Treated ash wood is easy to clean with a slightly damp, clean cloth. In case of stubborn stains, ash wood can be easily re-treated. Sand the wood to 180-grit paper, then ash wood can be well protected with an oil, wax, varnish or stain of your choice. Untreated ash wood is not suitable for outdoor use.
