WARNING tipping hazard!

For cabinets higher than 50 cm, we recommend paying extra attention to wall mounting. Drop prevention mounting prevents accidents and preserves the cupboard from tipping over.

Material

The metal in our collections has various finishes, such as: a powder coating. A powder coating provides a luxurious look and protects the metal for life. A powder coating is a lacquer that is attached to the metal using high temperatures. Powder coating ensures full colour coverage and has a matt or (slightly) glossy finish.
