The range of home decoration within the Exclusive collection of Dutch interior brand WOOD has been expanded with this robust candlestick: Prem. The Prem candlestick is characterised by the characteristic mango wood and its generous size. The item has a coarse appearance and each candlestick is unique.

## Material

Mango wood is known for its warm golden brown colour, durable growth and long durability. Mango wood is also characterised by clearly visible grain and colour nuances. The grain, a yellow glow or dark lines and knots ensure that each mango wood item is unique. Mango wood is very strong and one of the harder woods, so a mango wood item will not easily be damaged.
