The Lael armchair is from the Exclusive collection by Dutch interior design brand WOOD. When combined with a light colour palette, the armchair even looks like Japanese design.

Material

Mango wood is known for its warm golden brown colour, durable growth and long durability. Mango wood is also characterised by clearly visible grain and colour nuances. The grain, a yellow glow or dark lines and knots ensure that each mango wood item is unique. Mango wood is very strong and one of the harder woods, so a mango wood item will not easily be damaged.
