The Changing Moods series, from the Exclusive collection by Dutch interior design brand WOOD, consists of various, multifunctional decorative cushions. The collection name already hints at the distinctive power of these moods. Choose the light-coloured side during the day and give the cushion a quick turn to the dark-coloured side to easily create an intimate, cosy atmosphere. That's how quickly you adapt your seating area to your changing moods.

Material

The cotton cushion covers in our collections have a visibly high quality. The vegetable fibres are woven into a supple fabric that shapes beautifully around the cushion filling. The natural cotton fibre is inherently very strong and hard-wearing. The dyeing of cotton fibres or threads is done with great care and therefore requires careful handling, for this reason avoid rough rubbing and direct sunlight.
