An eye-catching artwork which also benefits room acoustics? Speck wall deco is the perfect solution! This fabric artwork comes from the collection of Dutch interior design brand BePureHome and is made of a jute-cotton mix. The print was created using a machine tuff technique, commonly seen in the development of rugs. Extremely strong!

Material

Jute is a vegetable material. The grass grows in a tropical environment, the jute fibres are extracted from the pith of the stems, then washed, dried, oiled and spun into yarn. The jute items in our collections are coarsely woven to achieve a robust look. Jute is quite stiff but can be coloured very well because of this, pigment adheres thoroughly to the coarse fibres.

Dimensions

- Height: 60 cm
