The Weft folding chair is the outdoor item you've been looking for! This handy seat comes from the collection of Dutch interior design brand Basiclabel and is characterised by stylish simplicity and practical ingenuity. The wooden frame offers the stability and durability you're looking for combined with the easy maintenance of the plastic rattan.

Outdoor

Protect the furniture against hard rain, night frost and the winter period with a plastic film or protective cover. If possible, it is better to winterise the furniture indoors.

Material

Rattan is the plastic variant of the natural rattan. Rattan is a very strong product and has
