Material

Our Orari is a coarsely woven fabric with a soft yet firm grip. The fabric has a subtle hue and a coarse weave pattern. Orari is composed of 94% polyester and 6% nylon. The coarsely woven fabric is suitable for very intensive use (Martindale 60,000). Orari is known as a very colourfast fabric and will not pill easily.

Maintenance

The Orari coarsely woven fabric requires slightly careful maintenance. In case of stains, dabbing with a slightly damp clean cloth is recommended. Friction can cause the nap to change. This fabric has been treated with a protective layer that provides protection around each fibre. This layer is self-cleaning and does not require dust. Impregnation is no longer necessary for this reason.
