For furniture higher than 50 cm, we recommend paying extra attention to the wall mounting. Fall prevention mounting prevents accidents and preserves the furniture from tipping over.

### Material

The metal in our collections has various finishes, such as: a powder coating. A powder coating provides a luxurious look and protects the metal for life. A powder coating is a lacquer that is attached to the metal using high temperatures. Powder coating ensures full colour coverage and has a matt or (slightly) glossy finish.
