Additional description

The metal wall rack Teun (hxwxd): 188x85x35 cm is from the Dutch brand WOOD. The Teun wall rack is made of a tubular iron frame, 20x20 mm, combined with seven iron shelves. The entire rack is finished with a black powder coating. You can attach the rack Teun to the wall or place it as a room divider.

The thickness of each board is 2 cm and the maximum weight per board is 30 kg. Each 'intermediate compartment' has a height of 30 cm. The total height of the shelf is 60 cm. The rack has a total

Note: As a room divider, one narrow side must always be placed against a wall in order to be able to fix this rack securely. It is not recommended to place the rack in a freestanding position as this may cause the rack to topple over. In this series Teun, by the brand WOOD, a wall rack width 120 cm, a standing coat rack and a sidetable are available.
