### Additional description

Elephant skin is the latest version of the beautiful Rodeo seating series by the brand BePureHome. This spacious footstool / hocker is an ideal addition to the Rodeo sofa. As an extra seat or to sit on your legs for a while. This stool is lined with a beautiful Elephant skin. This skin resembles leather, but is made of 50% nylon and 50% pu in a warm gray color and that gives the stool a cool / robust look and feels great.

Furniture fabrics are sensitive to direct rays of ultraviolet light (sunlight or halogen light) and discolour over time. Do not place furniture in the immediate vicinity of a heat source. The skin has not been tested for additional treatments and we therefore advise against impregnating the sofa.

If necessary, clean it with a clean cloth, slightly moistened with lukewarm water. Do not rub, but swipe in one direction.

The legs are made of black metal. The seat height is 45 cm, the seat width is 84 cm, the seat depth is 55 cm...
