

OMBRE

Designer: Toni Rie

Glass pendant. Gold plating.

The stripes in the Ombre pendant lamp were actually introduced several years ago. But it took a few years for the stubborn lamp designer to achieve the perfect combination of classic craftsmanship and modern technology.

“The aim of this lamp is to produce nice light while avoiding being able to look into the bulb. We have now come so far in the development of electroplating that we can hide the bulb with a graduated metallic finish while retaining the lamp shade’s simple shape and the clear glass with the unfiltered light at the bottom of the shade.”

The lamp shade in clear blown glass is crafted by experienced glass artisans in a simple, elliptical shape that tapers slightly toward the bottom. Using modern technology, the inside of the shade has been given a beautiful, graduated metallic finish. It is this ombré effect that gives the pendant lamp its name.

The sizes are ideal for clustering several pendants together – for instance over the dining table. A special ball fixture ensures that the glass shade always hangs straight.

Cord:
300 cm black fabric

Ceiling canopy:
ø12.5xH2.5 cm. Black.

Socket/bulb (not incl.)
E27 max. 25W
